DEADLY GERMAN DIVER SETS UP BEER, CIGARS, THEN SENDS TORPEDO

LONDON, April 5.—German submarine operations around London after Easter resulted in the destruction of three ships—two British and one Russian.

The British steamer *Olivine* was torpedoed and sunk off the Isle of Wight in the English Channel Sunday afternoon.

Two hours later the Russian steamer *Hermes* was sent to the bottom near the same spot.

The steamer *City of Bremen* was sunk off the coast of Cornwall, in the English Channel, and four of her crew lost.

The crew of the *Hermes* said the Germans were courteous and served them beer and cigars before they torpedoed the ship. The submarine towed the crew shoreward until British destroyers were sighted, then dived and disappeared.

ELECTROCUTES SELF BY CONNECTING HAND TO 22,000 VOLT WIRE

OAKDALE, April 5.—Taking his cue from the scientific books he had been reading, Edward Searles, aged 40 years, of Knight's Ferry, picked a unique way to commit suicide when he electrocuted himself. He tied a copper wire around one wrist, throwing the other end over a high tension power line. He received a charge of 22,000 volts and death came instantly.

SAYS JACKMAN'S TALK HOT AIR; LECK TOLD TO SIT DOWN

At the meeting of the Taxpayers' League of Orange County at the city hall Saturday, Supervisor Leck characterized S. J. Jackman's report on certain projects carried out by the Board of Supervisors as "hot air talk." Because he would not apologize or withdraw the remark, Leck was refused the floor of the league.

The league passed a resolution favoring legislation that will cause supervisors of the county to be elected by vote of the entire county, the supervisors to be elected according to districts. The plan proposed for the county is the same that has been adopted for the election of trustees of Santa Ana city.

The resolution followed an afternoon that was unusually lively. S. J. Jackman has a committee of the league made a report upon a committee's investigations into some of the projects of the Board of Supervisors, and brought forth the tilt with Supervisor Jasper Leck of Tustin, who was present.

Leck referred to Jackman's report as "hot air talk." Jackman demanded that Leck apologize or withdraw his remark before he be allowed to proceed with his reply to some of the statements made by Jackman. Leck stood pat. He said he would neither apologize nor withdraw his remark.

D. G. Cole, president of the league, refused to allow Leck to proceed further with his talk.

Supervisor Fred W. Struck of Orange, who was present, was called upon, and made a reply to some of the points brought out in Jackman's report.

Extensive Report
Jackman's report was an extensive one. He prefaced his figures with a statement that it is the purpose of the league to see where the county's money goes, how it is spent and whether or not the taxpayers are getting their money's worth. He said the league does not object to taxes, but it wants to know how the money is spent.

Jackman's report took up a number of propositions. He stated that he had gone to the records and had checked over warrants, and he had every reason to believe what he said was correct. He said the West Fifth street bridge had cost \$31,000. He said that when the county was preparing to build the West Seventeenth street bridge some of the old lumber from the wooden Fifth street bridge was taken there, and that when it came time to build some of the lumber had disappeared. He said that the county paid far more for having its road roads bonds printed than was paid by San Bernardino or Riverside counties. The gravel pit at McPherson came in for a statement. Jackman said that the rock crushing outfit cost \$19,000 and \$31,000 had been spent for operation, bringing the cost of gravel far above a bid of twenty-seven cents offered the county.

Photographs
A large number of photographs were produced, some showing the gravel pit, some the bridges, some the situation at the Olive bridge, where the water does not now flow under the bridge that was commenced but not yet completed, some of repair work near Garden Grove and some of the Santa Ana canyon road. Jackman contended that the washing of the heavy rains in the Santa Ana canyon had demonstrated that that road should not be paved until after all fills had been thoroughly settled. Further he contended that the road ought not to be paved at all, that it would be a waste of money because the decomposed granite in the canyon made the finest natural road-bed to be had. He declared that the large amount of repair work being done on the Garden Grove good roads surfacing shows that the surfacing is a failure.

Leck's Remark
When Jackman had finished, Supervisor Leck rose to his feet and said that he did not know how much faith

THE SIEGE OF THE GREAT AUSTRIAN FORTRESS OF PRZEMYSL (pronounced Pshay-mish-l), which was taken by the Russians after an attack starting last September, will rank in history with the siege of Port Arthur. The Russians have been reported several times as having captured it. They have invested the city for the last few months, and Austrian armies have been unable to dislodge them. When the siege began there were some 60,000 or 80,000 troops within, but many of them were lost through fighting and by the course of disease, which was as damaging as the shells of the Russians.

those present put in Jackman's statements, which Leck characterized as a "hot air talk."

Instantly Jackman was on his feet and demanded that the discussion be without personalities, and that unless Leck apologized or withdrew the statement the chairman refuse to allow Leck to proceed. That ended Leck's talk, for he refused to make any change in his opening remark.

Struck said that it was true that a part of the lumber for the Seventeenth street bridge had disappeared, and said that a detective was put out to find it, and that some of the lumber was found at a sugar beet dump and part of the lumber was recovered. He said that so far as the gravel pit and rock crusher was concerned, the bid mentioned by Jackman was not received until after the county had purchased its plant. Moreover, he said freight rates and other matters were to be considered.

About sixty new members were added to the roll of the league at Saturday's meeting. The meeting ended with the passing of a resolution favoring the election of supervisors by a vote of the entire county, supervisors to be chosen according to districts.

100 DIE IN APRIL GALE LASHING ALL ATLANTIC SEABOARD

NEW YORK, April 5.—With the gradual return of clear weather bringing constantly increasing tales of death and disaster, it is estimated today that the terrific storms which the past few days gripped the entire Atlantic seaboard have claimed 100 or more lives.

No trace has been found of the steamship *Prinz Mauritz*, foundered off Cape Hatteras, while a dozen craft, summoned by wireless, rushed to her assistance. The volunteer searchers have not come across a single one of the 145 crew members and four passengers of the *Mauritz*.

At least a dozen ships are believed to have been lost in the sixty-mile gale. The property loss is estimated at \$1,500,000.

An army of 20,000 shovelers and other laborers is at work along the coast clearing away the dangerous flotsam and rescuing an occasional body of drowned seamen and others from the waters.

TODAY'S ODDEST STORY

KNIGHT'S FERRY, Ore., April 5.—Blacksmith Sam Baugh has had little Wall Street experience but nevertheless has learned to eschew the bulls and bears. He went to Postmaster Collins' corral to look at the new Collins bull, forgetting to doff his red shirt. When the bull charged at his shirt, Baugh ducked into a cave on the river bank, only to scramble out again. The bull charged again and he dived back into the grotto, and then back and forth on several round trips.

"Stay in," yelled Collins, from a tree.

"Won't; there's a bear inside." Finally watching his chance Baugh grabbed the bull by the tail and threw him. Later, the men invaded the cave with guns and got a mother bear and two cubs.

Bissett, a candidate, was ineligible.

AUTOS CRASH ON FIRST STREET; DAMAGE SLIGHT

What might easily have terminated in a serious accident was narrowly averted at the corner of Orange avenue and First street yesterday evening at about 6 o'clock when an automobile driven by Roy Charleston of Anaheim collided with a machine driven by Henry J. Wasserman, Santa Ana agent for the Southern Pacific. Wasserman's auto, a Metz, came out of the accident with a bent front axle. The Charleston car was only slightly damaged.

Roy Charleston, son of Mrs. A. E. Charleston, was driving north on Orange avenue, returning from Laguna. Others in the Charleston auto were Mr. and Mrs. M. R. Tanner, and daughter, Velma, of Fullerton.

Wasserman, with whom was riding Miss Grace Harding, 519 Fairlawn avenue, was driving his machine east on First street. Both machines were going at a moderate rate of speed.

Roy Charleston turned west off Orange avenue on to First street. The front end of Wasserman's car hit the rear end of the Charleston car. Though it appears that the accident was unavoidable, Charleston settled on the spot for the damage his car did to Wasserman's machine.

26 ROUNDS END RING CAREER OF BIG NEGRO IN FAST BATTLE AT HAVANA ARENA

RINGSIDE, HAVANA, April 5.—Jess Willard, the Kansas cowboy, brought back to the white race the world's championship today.

He knocked out Jack Johnson in the twenty-sixth round with a terrific left to the jaw after rendering him almost helpless with a left and right to the same place.

Johnson dropped like a log and lay supine. Not a muscle quivered.

The crowd leaped to the chairs as Referee Welsh counted aloud, his voice being audible many yards from the ring on account of the silence.

As the seventh second was reached the crowd began to shout, realizing Johnson was finished.

By the time the final count was reached the audience was in a frenzy and the rurales had difficulty in restraining the excited mob.

Willard's second rushed into the ring and lovingly pounded the new champion.

Many Cubans forced their way into the ring and tried to kiss him.

The rurales were finally compelled to call the aid of soldiers, who leaped into the ring with drawn sabers and kept the crowd away.

Hundreds of arms reached aloft as Willard left the ring and carried him toward his dressing room.

Willard finally entered a big automobile and plunged off toward his hotel.

Willard had the best of the fighting for eleven rounds. Johnson took three. The rest were even.

To the seventh round the fight was fairly even. In the eighth and ninth Willard assumed the lead.

Johnson showed to advantage in the twelfth when by a furious spurt he caused his backers to believe he had been traveling under wraps. It was only a spurt, however.

Willard held back until the nineteenth, when he began to again put up a lead. Johnson was tiring rapidly, his age and condition telling.

The end came in the twenty-sixth. Johnson apparently tried desperately, but Willard's strength and hitting power were too great.

Willard fought carefully and used his left jab to advantage, following repeatedly with his right. He even had his own way at the infighting, which was thought to be Johnson's forte.

This, coupled with Willard's superb condition, made the new champion.

The sun penetrated the clouds at noon.

President Menocal and his suite occupied a ringside box and all other Cuban dignitaries were present.

Johnson's wife occupied a nearby box.

Just before Johnson entered the ring it was announced that he had been handed \$29,000, the balance of his share of the proceeds, fulfilling the agreement for advance payment.

Johnson entered the ring first, appearing confident. He stretched his arms and danced about, testing the boards. He was loudly cheered.

Willard was given an ovation. He was stern and unsmiling.

Johnson weighed in at 225 and Willard at 228.

The arena was comfortably filled when the men were introduced.

Five hundred soldiers were stationed about Mariano's track today to prevent disorders among the crowd here to attend the bout between Johnson and Willard.

Every precaution was taken to prevent race riots in the event the negro was returned the winner.

Both fighters slept well last night, Johnson for ten hours and Willard for nine.

Both rose at 8 o'clock and immediately repaired to their respective gymnasiums, where they engaged in shadow boxing and short sprints. Then both were rubbed down and after breakfast and a brief rest started for the race track.

Betting was 8 to 5 early today that Johnson would win. Few large bets were recorded and not more than \$30,000 has been wagered since the match was made. Most of the wagers were made on the length of the match, irrespective of the winner.

The crowd left for the race track early and it was early expected that at least 20,000 would witness the contest.

Outline Plans Tonight for "Clean-up" Week

Tentative plans for the Clean-Up and Paint-Up campaign in Santa Ana probably will be outlined at the regular meeting of the city council tonight when Mayor Ey will present the matter to the board of trustees. His suggestion, which includes the issuance of an official proclamation undoubtedly will receive the hearty approval of the members of the board, and preliminary steps will be taken by the municipal authorities forthwith.

"Clean-Up" week, the official date of which is April 19 to 25, will be generally observed here, early interest tends to indicate. All effort will be made to interest every civic organization and it has been suggested that "Clean-Up" buttons be distributed to all school children as a reminder of the event. That the public schools of Santa Ana will co-operate in the enterprise is assured although a definite plan of operation has not yet been outlined.

The fact that the insurance companies of this state have designated Clean-Up week as official insurance week, adds interest to the occasion. Insurance agents throughout the state will co-operate in the movement.

Though official Clean-Up week is April 19 to 24, citizens of Santa Ana, with their characteristic progressiveness, already are giving their attention to this important phase of civic improvement.

'JOKE BILL' MAY BE BOOMERANG TO LEGISLATOR

ST. PAUL, Minn., April 5.—Because certain farmers had complained that they did not have friends in the legislature, Senator E. J. Westlake of Minneapolis introduced a "joker," which, he said today, he never hoped to pass. Now his political enemies threaten to get behind the bill and force it through with his name attached unless he gives certain concessions on a 2½-cent railroad fare bill. Some of the provisions of the "joker" follow:

"All bulls, on highways, must carry fifty pounds of bells, a steam whistle and an electric headlight of not less than 1500 candle power."

"Cows shall not be permitted to give more than 50 quarts of milk a day."

"Sheds shall be built over all fields where hired men work in summer."

"Produce prices must not be increased without the consent of a commission."

"Eight hours shall constitute a hired man's day. He shall not work any Sunday or holiday."

"Wagons' single and double trees shall be equipped with automatic couplers, relieving the necessity of hired men going behind a horse to make a coupling."

RATTLER ON ISLAND

Newport News: A brown Montana rattler, three feet and four inches in length, was killed on Balboa Island Friday morning. The serpent had nine rattles and one button and was found near the cement retaining wall. This is the first snake that has ever been found on the island, and it is a mystery where it came from. The general opinion is that the reptile was brought to the island in a load of filling dirt.

MOTHER! IS CHILD'S STOMACH SOUR, SICK

If Cross, Feverish, Constipated, Give "California Syrup of Figs"

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachic indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—Advertisement.

The beans were picked on Williamson's ranch close up against the foothills, and were shipped to San Francisco on Saturday.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is Sign You Have Been Eating too Much Meat

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effective

Some Forms of Rheumatism Curable
Rheumatism is a disease characterized by pains in the joints and in the muscles. The most common forms are: Acute and Chronic Rheumatism, Rheumatic Headaches, Sciatic Rheumatism and Lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates the system. Sloan's Liniment is good for pain, and especially Rheumatic Pain, because it penetrates to the sea of the trouble, soothes the afflicted part, and draws the pain. "Sloan's Liniment is all medicine." FINEST HOMES IN WORLD FOUND ON COAST

LOS ANGELES, April 5.—Seeking the twelve most beautiful homes in America, Henry Salor, editor of "Country Life in America," has found a full dozen in Southern California.

Today Mr. Salor declared he was in a quandary as to how he could limit the beautiful homes in this country to twelve.

"I begin to think I'll have to increase the number to twenty-five," he said, "because it is impossible by any process of elimination to confine the series to twelve gems of architecture after visiting Southern California."

NEWS BUDGET FROM TALBERT

TALBERT, April 5.—The Palace Restaurant people of Santa Ana have put in an eating camp for the boulevard people so as to have all the men to eat at one place. The cement work has been started and is in a few miles of Talbert now. The road is expected to be ready for travel in a month or two.

Since the rains Saturday night and Sunday the beets have been growing fine. The prospects now are fine for a good crop. Some think the crop can now be made with very little irrigating and this will lessen the expenses considerably.

L. T. Wells and family have just returned from a trip of several months visiting in the east. They seem glad to get back to California. However, they enjoyed their visit to New York State.

When a bargain is in sight there is no trouble in getting a trade with the ranchers around here. A few days ago a man came along with a good looking mule and offered it to Roy Manley for a nice hog. It didn't take Manley long to see the bargain and the change was made in a few minutes. It seems that hogs are about as valuable as mules in this part of the country.

C. F. Warr and wife went to Compton Monday to attend the funeral of a friend of theirs.

Joe Jones and family of Los Angeles spent several days this week with his brother, Will Jones.

Claude Swift of Los Angeles is spending the week with his parents, Mr. and Mrs. A. E. Swift.

HIS HEAD CUT IN COLLISION

Thrown from his motorcycle at East Whittier, Sergeant Blackford of Fullerton had his head severely cut last night. Blackford was riding toward Fullerton. He was blinded by the lights of an approaching automobile, and ran too close to it. His motorcycle struck the fender of the automobile, and Blackford was thrown.

Two Whittier physicians were immediately summoned. They declared that the injuries were not serious.

Blackford is aged about 55 and is a prominent poultryman of Fullerton. This is his second accident with his motorcycle in the last year.

HERE'S PROOF

A Santa Ana Citizen Tells of His Experience

You have a right to doubt statements of people living far away but can you doubt Santa Ana endorse them?

Read it:

W. N. Nelson, 824 E. Fourth St., Santa Ana, says: "Off and on my back was so painful that I could hardly turn in bed. I had to change my position every little while. I also had rheumatic pains. I used several boxes of Doan's Kidney Pills and was rid of the pains and aches. I have had no further trouble since. Several years ago I publicly recommended Doan's Kidney Pills and the endorsement I gave them at that time still holds good."

THE DRIED FRUIT OUTLOOK NOW IMPROVED

FRESNO, April 5.—A good year in all dried fruit lines, with the possible exception of peaches, is anticipated by James Madison, vice president and manager of the California Associated Raisin Company, who has returned from a visit of several weeks to eastern market centers. Madison visited all the larger market centers and many of the rural districts as well.

"The general feeling throughout the east is optimistic," he said. "The rural districts were never in better condition. The large cities are not in as good shape and the trade is inclined to be dull. The main reason is that the bankers are not letting out money on long-term loans and this has resulted in curtailing improvements of all kinds."

"I found stocks of raisins to be limited, and, in fact, all California products, because of the fact that everybody has been buying conservatively. Because of the limited stocks, I look for a good demand for California products, with the possible exception of peaches."

"Dried peaches are being supplanted by apples and other fruits produced locally. There were very heavy crops of local fruits, and as a consequence housewives did more canning than usual. One firm manufacturing jars advised me that their sales last summer had broken all records. With the housewife well stocked with canned fruits, the market for dried peaches has not been very active."

The Associated is making special efforts to deal directly with wholesale grocers and the baking trade, and while in the east Mr. Madison said he had pleasant meetings with nearly all of the larger wholesale grocers.

He also established an Associated office in New York to handle the trade for the company in that city and keep short time and a similar office was established in Chicago.

"I do not believe the war has hurt the raisin industry any," he said, "because there have been no free shipments, and I do not think there is any question but what the trade will buy when the proper time comes."

YORBA LINDA WELL NOW IN AN OIL SAND

The new well of the Quintuple Oil Company at Yorba Linda is reported to be now ready for actual pumping operations, and from the showing during the baling operations and from the preliminary tests, promises to become a producer of 400 or 500 barrels of high grade oil daily.

While three or four other companies are now drilling at Yorba Linda, this is the first well to enter the strata of oil sand and the splendid showing made has resulted in scores of leases by well known oil operators right to the edge of the townsite. A second well of the Pittsburg Company is already down 1122 feet and advancing at the rate of 25 to 100 feet a day.

Yorba Linda was famous as one of the most promising young citrus districts in Southern California, but from reports, it is stated, is destined to become an oil producing center of considerable importance. The Olinda and Fullerton oil fields are almost directly adjacent to this property.

GROWTH IS SHOWN BY NEW DIRECTORY

Anaheim's Population is Between 4500 and 5000—Other Interesting Data

Some interesting information is obtained from the new Anaheim city directory, published by Thomas F. Perry, just off the press of the Register's job printing department, and which will be ready for delivery in a few days.

The directory contains the names and addresses of all people over eighteen years old who reside in the city of Anaheim, of whom there are 2210. It seems fair to assume that for each person over eighteen there is one under eighteen. This would give the city a population of 4420.

Figuring another way the population seems larger. The directory shows that there are 1267 houses or households in Anaheim. Four people to the house seems a conservative estimate; and this would give a population of 5068.

There are 291 business houses and professional men in Anaheim, including 9 doctors, 5 lawyers, 12 garages, 4 fruit packing and shipping houses, 3 hotels, 5 banks and 3 newspapers.

There are 5 public schools, 3 private schools and 11 churches. The new directory is handsomely printed and bound, and if its completeness and accuracy may be judged by Mr. Perry's work in compiling the Santa Ana city directory published a few months ago by the Santa Ana Chamber of Commerce, Anaheim has a directory that it may depend upon.

Well! Well! We've got a nice little start and are going to make some friends and have some satisfied customers to boost for us, real live cars in good shape with service and a guar-

NEWSPAPER ERRORS

The average newspaper readers—or it may be said ninety-five per cent of newspaper readers—are kindly indulgent—certainly they are discriminatingly just in their judgments. But the capacity of some people for detecting errors in the newspapers is marvelous. Also it is singular how many unexpected meanings these people can find.

If the reporter writes that a man wore a coat of such and such a character, some one may call up and ask if the coat was all the man had on. To satisfy these literatists, you must enumerate item by item the other articles of attire, or they will accuse you of making the victim appear half naked.

The reader, who digests his paper in the quiet of his home, feels that he has shown great brilliancy if he detects an error in grammar or capitalization. It is one thing to find mistakes at your leisure in another man's work, quite another to turn out high degree of accuracy and precision in the haste of newspaper composition.

The banker makes blunders in his figures, the lawyer draws up incorrect papers, and the business man submits erroneous bills. Such blunders are known only to the few persons whom they concern. The newspaper man is like the actor on the stage, whose slightest slip is manifest to all and seems ridiculous.

It would be perfectly possible to produce a newspaper having the same high degree of accuracy as the best edited magazine. But this would either cost about twice as much for a more costly force, or else the scope and field of the newspaper would have to be reduced and less matter printed. The public would not pay the bills in the first case, and it would not be satisfied with curtailment of services. So the newspapers struggle along as best they can in their eternal effort to accomplish that impossibility, a snap shot of daily life that shall be permanent and absolutely truthful history.

The newspaper man is not offended when he is jollied on such mistakes as creep in. He merely wishes the critics could have his job about one week.

We are making a lot of noise about a guarantee on our used cars but by good we can prove it for any who are doubtful. Russell Motor Sales Co., Second and Bush.

Today's Feature Story

[By a United Press Staff Correspondent]

LONDON.—There is no conscription in England. But there is a form of persuasion, that is just as effective, by which Lord Kitchener's army has, in part, been made up.

The big landowners of England are among the most effective recruiters that England has today. There are parts of the little island of England where one may stand on a high hill and look about him with field glasses and know that every inch of land, as far as he can see, is owned by one man. On this land are small villages. These villages have their homes, their business streets, their public libraries, their hotels and railroad stations and postoffices, but every institution in that village and every person exists in that district by permission of the duke or lord who owns the land. To these persons in such villages the goodwill of the land owner is of more importance than the goodwill of the king. "His grace," as the tenants call him, possesses an almost unlimited power over the lives and actions of the tenants.

"His grace," in one of these small towns, has only to publicly express his wish that every able-bodied young man in the place shall enlist and after that wish is expressed we betide the young man, who, several weeks later, without good reason, is still found within the village precincts. The old men and the women revile him and the girls of the village "cut him" dead. There is only one thing for him to do and that is to go to war.

The village of Arundel, on the estate of the Duke of Norfolk, who owns 49,000 acres in the south of England, is an example of the small English town where young men are not to be seen. What influence the Duke of Norfolk used in helping his king to secure recruits is not known. But the fact remains that Arundel has contributed all of its young men, who could possibly get away, to the army.

As you pass through the streets of Arundel you see, hanging in the windows of the cottages, large and gaily colored cards bearing the name of the man in that household who has gone to war. It is not unusual to see three or four cards in the window of a little home.

"Who are those cards for?" I asked a woman standing at the door of her cottage.

"My two sons and my husband," she said, proudly. "I haven't any more and they're all at the front. Those cards are all I've got to show that any men ever lived in this house."

In the great mill-dollars cathedral of the town, which the duke built, with his own money, there were eighteen black-bordered cards on the bulletin boards, bearing the names of men who have fallen in battle. And the congregation of the church numbers only 1000, a large majority of them being women. There are few churches in England that can show a record like that of the Duke of Norfolk's cathedral.

The verger of the church tells visitors:

As to Bank Advertising

(From the L. A. Financial News.)

Before the Ad Club of Los Angeles at its weekly dinner at the Clark Hotel this week E. G. McWilliams, of the Security Trust and Savings Bank was the principal speaker. He spoke on the advertising game from a bank man's standpoint saying:

"I desire to say a few words about two phases of the advertising game from a bank man's standpoint, and I feel that I am qualified to speak from that standpoint, having pushed a pen and counted money on practically every desk in a savings bank in New York City. The two phases I have in mind are first, the bank's attitude to the public in its advertising, and next, the attitude of the bank publicity man to those selling him advertising."

"Now in regard to the first—I believe it the duty of all banks to advertise—whether they be savings, commercial, trust, or all three. I know that all bank men do not agree with me in this. However, a study of the statistics of money which is won and hoarded in this country, leads us to the conclusion that in educating the public away from these things, which are entirely the result of ignorance, banks have a moral obligation, at least, second only to that of schools and churches in their respective spheres."

"If in advertising to the man on the street we can show him that we have a little human interest in him and at the same time offer inducements to save which will offset the present day inducements to spend, and also show him the advantage to both himself and his family, in creating a habit of saving, I believe great good will be accomplished. And if in advertising to the commercial man we can show him also that we have some interest in him besides his money—that we are willing to co-operate with them in every legitimate way, and show him why it is to our mutual advantage to get together, I believe that a closer relationship between banks and public will be established and that the money which is now wasted or hoarded, will be directed into the banks, there to be used as a basis for credit and sent out again through the legitimate channels of commerce, which will be for the benefit of us all."

"In regard to the bank publicity man's

attitude to those selling him advertising, I have been informed that in some parts of the country advertising men have come to believe that the only reason a bank man can give for not purchasing advertising is that the appropriation has been exhausted. I presume there are some bank men who have almost come to believe that through constant repetition—exactly as publishers of certain periodicals have almost come to believe their own published figures of circulation, for the same reason."

"I have also been told that in some parts of the country the bank-publicity man is a hard man to see. Now I believe that every intelligent bank-publicity man will be glad to see every individual who has a legitimate proposition to present, for the very person he is too busy to see may be the very one who has the idea for which he has been groping. At the same time, I believe that every piece of advertising should be considered entirely as a commercial proposition, and exactly as you or I would purchase any piece of merchandise for which we had need, and that it should not be purchased if we do not need it."

"In every city, and I find that Los Angeles is no exception, there are a host of organizations of various kinds which seem to feel that a financial institution exists solely for their support. To meet all the demands of these organizations would seriously handicap most institutions, therefore in justice to each, all must be refused although in doing so the publicity man possibly makes temporary enemies, at least."

"Then there is the man who attempts to force us to purchase advertising by threatening to withdraw his account, if he has one, or to influence business away from our institution. I believe that such a man is unworthy of any consideration and I believe that you will agree with me that any proposition which is presented on any other basis than that of its superior merit, admits its weakness and should not be considered."

"I believe a bank man will agree with me that we need the hearty co-operation of the advertising men to eliminate these elements from their field. We want you to help us and we want to help you, and it is our earnest desire to give every one of you a square deal."

of Willows and the price paid, the lowest acceptable under the court's decree, \$400,000. The sale occurred at Coiusa. Freeman's bid was the only one submitted and probably represented the Farmers Loan and Trust Company of New York, which institution brought the foreclosure proceedings. The real estate and stock sold were the holdings of the California-Idaho Land Company, which was one of several corporations formed by the Kuhn Syndicate to handle their Sacramento project.

Popular Class Teacher Gives Pretty Affair; Miss Ritner Complimented

One of the prettiest social affairs of the week-end was the 1 o'clock luncheon given Saturday at the home of Mrs. E. G. Holmes, 640 North Broadway, who entertained her Sunday school class of the First Baptist church.

A basket of lovely bride roses formed the floral centerpiece and fragrant orange blossoms strewn over the snowy linen suggested that one of the maidens who gathered around the table and succumbed to the wiles of Dan Cupid.

Dainty baskets of white, decorated with daffodils, and tied with fluffy yellow tulle, were filled with white and yellow candies and cunning little Easter chicks marked the place of each guest, the tints of the yellow and white color scheme prevailing throughout the delicious luncheon, which was served by the hostess, assisted by Mrs. E. D. Holmes and Mrs. Grace Wright.

As an interesting feature of this merry social affair, Miss Eleanor Ritner, a charming bride-to-be, was showered with an array of beautiful and useful gifts, including hand-painted china and numerous pieces of hand embroidery.

Among those who enjoyed the delightful hospitality of their popular class teacher were Misses Eleanor Ritner, Elsie and Norma Wingood, Lucy Hill, Irene Cozad, Alberta Black, Olive King, Thoretta Taylor, Emily West, Claire McPhee, Marie Harris, Ethel Rude, Carol Van Cleave, Ruth Grouard and Grace Peterman.

President Entertains Guests at Delightful Luncheon—Interesting Reports

The president of the Santa Ana chapter, American Woman's League, Mrs. A. C. Drake, was hostess to this organization Saturday afternoon at her attractive home, 514 West Fourth street.

Mrs. Katherine H. Beck, State A. W. L. Governor from Compton; Dr. Margaret Goetler and Mrs. Shotwell of Pasadena, Mrs. M. E. Jenkins of Los Angeles, Mrs. A. J. Lawton, J. E. Pierce and W. C. Young were guests of the league, whom Mrs. Drake entertained with a delightful luncheon, preceding the afternoon meeting.

Honoring the purple and white of the A. W. L. colors, a beautiful ribbon shower floated from the chandeliers to each plate, where the purple streamers were caught by white lilacs and purple clusters of these rare flowers were looped in the streamers of white.

Hand crocheted net baskets, tied with purple ribbon, marked each place, and cunning cards, bearing names and date of this pleasant affair in purple lettering were decorated with a purple Easter egg shell, containing white after-dinner mints. Lilies, purple stock and heliotrope were used in the decorative scheme throughout the rooms.

The banner of the A. W. L., over which floated Old Glory, welcomed the members to the door of the Drake home and a very interesting meeting was enjoyed by all.

Delegations from the Orange and Fullerton chapters were present and reports from the various chairmen were given. These reports showed the work being accomplished by the State, Peace, Interior, Education, Treasury, Commerce and Industry and Justice departments, and the discussion which followed proved to be very helpful.

Egg rolling and a hunt for pretty vari-colored Easter eggs entertained the children who also enjoyed music from the Edison disc phonograph when special pieces were played for their amusement.

A bounteous treat of ice cream and cake completed the merry afternoon and Mr. and Mrs. Wedell have won even a warmer place in the hearts of their little friends.

Jolly Evening Party

Miss Beatrice Weaver of Los Angeles was the honored guest at a jolly Friday evening party, given at the home of her uncle, J. L. Weaver, 511 East Chestnut avenue.

BEAUTIFUL SERVICES

Worshippers Enjoy Impressive Rites and Songs of Praise Which Herald Easter

The services which honored the Resurrection day yesterday at the various churches of this city were exceedingly beautiful and impressive, and again the number of talented Santa Ana musicians was emphasized.

Special Easter service was held at the First Methodist church in honor of the Santa Ana Commandery of Knights Templar who attended in a body, several Sir Knights taking part in the devotional services. Rev. Inwood preached a masterful sermon in the morning and the evening service was devoted to choir music, assisted by the orchestra.

The choir of the First Christian church gave a beautiful Easter cantata by Manner in the evening, the leading solo parts being ably taken by Miss Anna Witt and Miss Lorne Fipp.

"Darkness and Dawn" was gloriously rendered by the choir of the United Presbyterian church under the direction of T. Harry Warner. The choir consisted of twenty-one voices and soloists including Miss Freda Moesser, L. B. Babbitt, Clifford Johnston, L. A. Galloway and Walter Vieira.

Music lovers enjoyed the excellent Easter program at the First Baptist church where Miss Billingsley and Mr. Benjamin sang two beautiful solos, honoring the Prince of Peace.

The choir of Spurgeon Memorial church rendered pleasing musical programs in both morning and evening, a variety of instrumental and vocal selections making the services highly enjoyable to the many worshippers who attended.

Anthems of praise heralded the Risen King at the First Presbyterian church, and all who heard the songs of praise and the beautiful story that never grows old, were impressed anew with the wonderful blessings and hope made possible through the glorious Resurrection day.

Fishing Party at Trabuco

Mr. and Mrs. Charles Artz, Mr. and Mrs. B. F. Nimmo, Mr. and Mrs. Herbert Grove, Mr. and Mrs. A. C. Drake were members of a merry party who enjoyed trout fishing in the Trabuco canyon yesterday.

Anaheim Herald: Rev. C. W. F. Daniels was elected trustee of the grammar schools of this city yesterday by a vote of 145. Mrs. J. W. Wallop, the retiring candidate, received 115 votes; J. H. Clabaugh got 8 and some fifteen or sixteen others got one vote each. Although Mrs. Wallop had stated that she did not want her name on the ballot, her friends polled a heavy vote for her. AUTOS NEARLY OUST PASSENGER TRAINS

LINCOLN, Neb., April 5.—"Let the railroads raise their rates on passenger traffic," said a Lincoln automobile dealer today after reading of the U. S. Supreme Court's decision in the West Virginia two-cent fare case.

"If the Nebraska railroads put up their rates to two and a half or three cents, it is easy to demonstrate that a good light car, sensibly driven and properly cared for, can carry a load of people from one town to another in Nebraska for less money than the railroad."

"A raise in passenger rates would be a good thing for the automobile business. I know of a number of traveling men who are thinking of using light cars in making their towns. This extra half cent a mile on railroad rates is all that is needed to make them customers of mine."

POLY LOSES TO BEACHCOMBERS BY 6-3 SCORE

In its final practice game of the season the Santa Ana Polytechnic High School went down to defeat before the Long Beach High School by a score of 6 to 3 here Saturday afternoon. Inasmuch as the Beachcombers have one of the strongest prep school teams in the South this season, the showing made by the Braves in Saturday's game is considered satisfactory enough.

Parker manned the howitzer for the locals in the opening frames and had full control of the situation until the third, when the Fishermen began to get obstreperous, Melvin pulling out a three-base knock with one down. Harvey's infield hit scored Melvin. Harvey was caught off first. Maurer was safe when Leake pulled Irvine off the bag. Maurer stole and Miller was out. Carver to Irvine.

Long Beach got excited again in the fifth, when Abrams walked and stole. Shaull flied to Elliott, sacrificing Abrams to third. Abrams was safe at home when Parker, covering the plate for Brown, missed Brown's throw. Harvey out, Brown to Irvine.

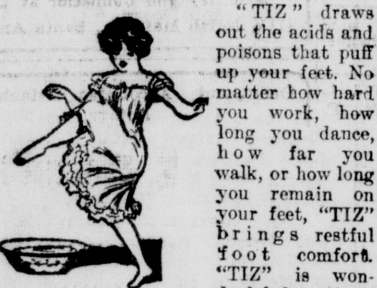

Lack of Restraint
In the sixth Long Beach failed again to restrain itself. Maurer started offensive tactics by rocking the fence with a triple. Miller struck out. Then Curry sauntered up and leaned against the bulb for a three-base clout, scoring Maurer. Curry was out for running out of boundaries. Stein was safe when Elliott muffed. Robinson flied to Cannon.

Seeing that the time was ripe for counter proceedings on their part, the Polytechnicians amassed a tally in the same frame. Parker pounded out a sizzling rap through center and stole second. Cannon was out, Maurer to Curry. Parker going to third. Elliott did the hero stunt by blinding out a single, scoring Parker. Leake out, Melvin to Curry.

A brief account of war was then held.

with the result that Carver climbed on to the hill. In the seventh, that is. The change in gunners seemed most auspicious, Carver flipping two strikes as openers and fanning his first man. Shaull pried an easy pop to Carver and Melvin, the invading tosser, fanned.

In spite of the fact that Brown took a most ferocious grip of his trusty war club and said, "Well, shall we go now?" the locals failed to do any garnering in the second half of the seventh.

In their department of the eighth the Surimen's conduct passed all bounds.

Harvey it was who commenced the havoc, doubling down the third base line. Maurer's infield single advanced Harvey to third. Maurer stole. Things looked better when Harvey was out. Brown to Parker, but this was discounted most horribly when Miller walked and Curry doubled, scoring Maurer. Stein amassed a neat single, scoring Miller and Curry. Stein stole; Robinson popped to Cannon and Abrams was out to Irvine, unassisted. Score, at this juncture, 6 to 1.

Two Tallies
Nothing transpired until the locals' half of the ninth. Although somewhat late for such doings, the Poly ball smashes began to scowl most terrifically and to vow revenge, ultimate and devastating, with the result that they clanged the tossin twice.

Elliott and Leake went in cahoots in the slugging pastime, both tearing the hide off the projectile for singles. Brown sacrificed, Melvin to Curry. Curry shot the pill to third. That is, in the direction of third, for the ball went about a mile of its mark, more or less, scoring Elliott and putting Leake on third. Leake scored on a wild pitch, Myers was out, Abrams to Curry, and Carver lined to Abrams.

E. B. STANLEY TIES BROWNING'S MARK

Proof of what grit and hard work will do is evidenced in the achievement Saturday of E. B. Stanley, court reporter in Judge Thomas' court, Santa Ana, when he tied F. B. Browning for high club score at the Orange County Country Club, negotiating the difficult course in 40.

Stanley has been one of the most ardent golfers of the many who take every opportunity to visit the course on the Newport Bay palisades. Every spare half day or so that Stanley could get away from his arduous professional duties he utilized to the fullest extent.

Unending practice has marked Stanley's work with the driver, midiron and putter. All this application had its reward Saturday when Stanley made the score of 40. Stanley's score has been certified to by several of the Orange County Country Club members.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks

PLAVAN BEATS HOUSE IN THE BROAD JUMP

Ernest Plavan of Santa Ana Polytechnic high school made a splendid showing Saturday at Fresno in the first annual track and field meet of the California Interscholastic Federation, winning first place in the broad jump and winning fourth in the javelin throw exhibition. Plavan jumped a distance of 21 feet. House, of Riverside, who was second in the broad jump, is an old rival of Plavan's and the local boy's defeat of the Riverside man is particularly gratifying, not only to Plavan but to his schoolmates as well.

Broad Jump—Plavan, Santa Ana, first; House, Riverside, second; Stewart, Manual Arts, third; Nagol, Palo Alto, fourth. Distance, 21 feet.

Javelin throw exhibition—Bieglow, Modesto, first; Wark, Long Beach, second; F. Walters, Exeter, third; Plavan, Santa Ana, fourth. Distance, 149 feet, 6 inches.

Five world and coast interscholastic track records were broken. One hundred athletes, representing eighteen high schools competed.

The results: Los Angeles, Manual Arts, 25; Visalia, 18; Long Beach, 14; Santa Rosa, 13; Riverside, 11; Santa Paula, 10; San Jose, 8; Los Angeles Poly, 7; Sacramento, 6; Exeter, 6; Pasadena, 6; Coalinga, 6; Santa Ana, 5; Hemet, 3; Glendale, 2; Bakersfield, 2; Palo Alto, 1; Hanford, 0; San Mateo, 0; Berkeley, 0.

House of Riverside, broke the world's interscholastic record in the 220-yard hurdles, covering the distance in 23 4-5 seconds. The former record was 24 4-5 seconds. The other world's record was broken by E. Thompson of Long Beach in the 120 hurdles. Thompson ran the low barrier race in 15 1-5 seconds, the former record standing at 15 2-5 seconds.

Coast interscholastic records fell in the 440-yard run, 220-yard dash and 880-yard run. Conn, the only entry from Pasadena, ran the 440 in 50 seconds, flat, against 59 3-5 seconds, the former record.

In the 220-yard event, Wark of Long Beach, lowered the coast high school record by one-fifth of a second, making the distance in 22 seconds, flat. The former record was 22 1-5 seconds.

Blankenship of Visalia, set a new and official mark for the 880-yard run, covering the quarter in 1 minute 59 4-5 seconds. During a trial meet at Stanford last year, this distance was run in 1 minute, 58 2-5 seconds, but this time was never considered as an official record.

ANAHEIM NOSES OUT FULLERTON IN NINTH

ANAHEIM, April 5.—Anaheim went to the bat and defeated Fullerton in the last inning of yesterday's ball game, in the race for the Orange county championship. Wilson heaved good ball for Anaheim and got good support.

Fullerton ran up a close score, however, and with nine hits came near to nosing Anaheim out of the running. The score:

R. H. E.
Anaheim 7 4 3
Fullerton 6 9 3
Batteries—Wilson and McCaffery; Moss and Callan.

AMUSEMENTS

Temple Theater
The Jesse L. Lasky picturization of "The Country Boy," with Marshall Neilan in the title role, is to be the offering at the Temple Theater on Monday, Tuesday and Wednesday. This comedy-drama by Edgar Selwyn does not necessarily seek to condemn the city or uphold the country, but it does show the contrast between metropolitan life and existence under more normal conditions in the smaller centers of population. As one might say, "The country is not so bad after all."

And doubtless it looked particularly good to Tom Wilson, when, after finding himself wanting in the metropolitan melting pot, he was finally able to return home honorably and become the accepted suitor of the sweet and ingenuous Jane.

Many a grown-up "country boy"—even those who have attained prosperity in New York and the other big cities—will probably feel a twinge of homesickness in their hearts when they see, in this touching and very genuine picture, the satisfaction with which the young adventurer turns again to the homestead and the green fields.

LE MAT WINS

SAN FRANCISCO, April 5.—R. P. Le Mat won the transcontinental automobile race from New York to the Panama-Pacific Exposition grounds, defeating Stanley James by a few hours' running time, both drivers arriving at the exposition yesterday afternoon. Le Mat's running time was 668 hours.

BURMAN WINS
With the throttle of his French Peugeot only partially open, Bob Burman won the fifty-mile event at Ascot Park yesterday afternoon and staked himself to the world's dirt track championship.

Earl Cooper on the Stutz limped in a poor second, more than a lap behind Burman. Disbrow on the Simplex "Zip" failed to finish.

Burman covered the fifty miles in 52 minutes, 36 9-10 seconds. Cooper's time was 53 minutes, 46 45-100 seconds.

After Disbrow was forced to retire, the matinee was no longer a race but a two-car parade.

FIRST LEAGUE GAME WON BY ORANGE, 8 TO 1

The Orange County High School Baseball League was opened Saturday at Anaheim, Orange defeating Anaheim by a score of 8 to 1. Huntington Beach was to have played Fullerton but for some reason the game was not played.

The game at Anaheim was a rather uninteresting affair owing to the lack of opposition the Orangemen encountered. A small crowd witnessed the contest.

Lush and Potter formed the battery for Orange and Chamberlain and Schacht for Anaheim. The Orange heavier struck out ten and the Mother Colony twirler nine.

The score by innings:

Orange	5	0	0	2	0	0	0	0	1	8	0	4
Hits	1	1	0	0	0	0	1	1	2	0	6	0
Anaheim	0	0	0	0	0	0	0	0	1	1	0	12
Hits	1	1	0	0	1	1	0	0	1	0	5	0

LOCAL GOLFERS ARE STILL DOING BATTLE

At Redlands Saturday four team matches in the league invitation event were played and two were defaulted. Midwick and Virginia could not muster a team and so gave Redlands a cheap victory. But Annandale, Los Angeles, San Gabriel and Orange County were there in full force, giving Redlands a four-fold victory of exceeding sumptuousness.

The Redlands team cannot be patronized on its own course.

They beat Orange County 6 to 1 on scratch, 5 to 2 on handicap.

They beat San Gabriel 7 to nil on scratch, 5 to 2 on handicap.

They beat Annandale 4 to 3 on scratch, 5 to 2 on handicap.

They lost the scratch to the Los Angeles team, 5 to 2. But they won the handicap, 4 to 2, and one tie.

Phillips played among others, A. A. French of Annandale, Judge Frederickson of Los Angeles and F. B. Browning of Orange county and won all his matches on both counts.

Raymond Hornby of Redlands, played George B. Shattuck of Orange county. He won everything, except his handicap against Jevne, which the latter won at the twenty-second hole.

Gregory Palmer of Redlands played J. W. Tubbs and won from Tubbs both counts.

Albert Will played E. H. Bramwell of Orange county, and was beaten by the visitor on both counts.

A. C. Cameron played J. F. Parsons of Orange county and won both counts.

Leslie R. Gay of Redlands played K. C. Watson of Orange county and won both matches.

M. S. Severance of Redlands played Collins of Orange county, and won the scratch, tying the handicap.

WALKER IS FIRST IN VENICE GRAND PRIX

Otto Walker of Oakland, riding a Harley-Davidson, flashed across the finish line yesterday afternoon, winner of the great Venice International Motorcycle Grand Prix. Walker's time was 4 hours, 24 minutes, 17 1-5 seconds.

Leslie Parkhurst of Milwaukee, also riding a Harley-Davidson, won second money in the 300-mile classic. His time was 4 hours, 24 minutes, 32 4-5 seconds.

Third money went to Carl Goudy of Chicago on an Excelsior machine. He completed the ninety-seven dizzy laps in 4 hours, 37 minutes, 28 seconds. Bob Perry, another boy on an Excelsior, was fourth in 4 hours, 42 minutes, 22 2-5 seconds.

Two Indian machines, driven by Fred Ludlow and M. G. Graves, both of Los Angeles, won fifth and sixth. Ludlow's time was 4 hours, 44 minutes, 37 2-5 seconds and Graves covered the distance in 4 hours, 49 minutes, 2-5 seconds.

The winning Harley-Davidson averaged a fraction more than 60 miles per hour, which is faster time than was made by the winner of the Venice automobile race, March 17.

It was a great contest. The riders fought for place on every lap; and for thrills, the Venice Motorcycle Grand Prix eclipsed any automobile race ever staged in Southern California.

The thirty-seven starters were cut to thirty-four. Ernest D. Troutman, L. K. Greer and Ernest S. Koch, did not start.

AT THE COURT HOUSE BROTHER-IN-LAW OF HIS WIFE IS ACCUSED OF FRAUD

H. M. Zerounian declares that his wife's brother-in-law, Robert Avakyan, has \$2500 that belongs to Zerounian and won't give it up. That is the reason Zerounian has brought an action in court against Avakyan and also the reason why Avakyan's stock in the Pacific Oil Cloth & Linoleum Company at Huntington Beach and Avakyan's interest in a ranch have been attached by the sheriff.

The plaintiff Zerounian's complaint was filed by Attorneys Williams & Rutan. That document alleges that Avakyan on December 30, 1914, received \$500 from the plaintiff to be applied to the purchase price of some land. It is asserted that in that deal Avakyan was merely agent for Zerounian. The charge of fraud comes in a paragraph which states that on February 1, 1915, Avakyan went to Mrs. Zerounian, who is the sister of Mrs. Avakyan, and because of her confidence in him he got her to sign a check for \$2,000 that was in a bank. It is stated that Avakyan persuaded his sister-in-law that the money would be much safer in his hands than in hers or her husband's. He got the money, and Zerounian says that he will not return it.

Zerounian asks the court to do what he cannot do—that is, make Avakyan come across.

Quiet Title Case
Actions to quiet title have been brought against Luella A. Parker as administratrix of the estate of Robert Parker by A. G. Miller, concerning 17.75 acres, Guss Leander, 16.26 acres, and John S. Dean, 21.75 acres. Williams and Rutan are attorneys for the plaintiff.

Thinks It Enough
The administrator of the estate of Robert T. Cassidy thinks that \$40 a month is sufficient allowance for Sarah A. Cassidy, the widow. The widow has applied to the court for a raise in her monthly allowance, and attorneys for the estate allege that she

Knoller Loses
Mr. R. Knoller lost his suit against W. A. Zimmerman and others concerned in the ownership and possession of a store on West Fourth street. Knoller alleged that he had a right to an accounting. Judge Thomas held that the store is still in the possession of representatives of the Orange County Savings & Trust Company as trustees.

Demurrer Sustained
Judge Thomas has sustained the demurrer to the cross-complaint in the action of Steele Finley against Crandall Construction Company. The cross-complaint alleged that the Crandall company is also interested in a Pomona paving job now being done by George Magill, associated with Finley. Finley's attorneys demurred, and the demurrer was sustained with leave to amend the cross-complaint. Magill and Finley do not admit that Crandall has any interest in the Jomona job.

Recorder's Office
On a demurrer for \$2500 a half interest in ranch property has been attached in an action brought by H. M. Zerounian against Robert Avakyan.

A homestead on lot 3, block 60, Buena Park, has been declared by Nettie R. Robeson; value, \$1500.

Marvin R. Lee has filed a declaration of homestead on five acres on Center street, Anaheim; value, \$4000.

Notice of sale is recorded showing the sale of a stock of queensware at 316 West Fourth street from W. R. Ozmert to Oscar Cochems.

Developing Waterways
(From the L. A. Financial News.)

America must slow down or go mad speed mania must cease. This is the advice of Vice President Marshall to the International Waterways Congress which has been in session in San Francisco this week. "The great reason why our waterways have been slow in their development," said Mr. Marshall, "lies in the fact that the American people are going too fast. They are not content to wait through the slower stages of water transportation, but demand the speed and rush of express trains. The future, however, will bring about a decided change in this. Already we are reaching the era when the things we need on our breakfast table will be sent to us by means of water transportation and not by express or fast freight."

"Waterways combine the present but far more the future. We are a right speedy people. I speak of our national tendency to demand the speed and rush of express trains. The future, however, will bring about a decided change in this. Already we are reaching the era when the things we need on our breakfast table will be sent to us by means of water transportation and not by express or fast freight, but by the slow process of the waterways. I want it distinctly understood that in these desultory remarks upon the future value and efficiency of the waterways I'm not running a tilt in favor of government ownership of railroads in America. That is a problem for the future. I may be permitted to say that whenever it becomes necessary to float a dreadnaught of the United States in a stream supplied exclusively with artesian water, I shall have my doubts about the duty of Congress to dig the well. I second whatever can be shown to be valuable to the people, but I refuse to vote for what somebody may call a river when it's only a mirage."

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils
Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief. Ah! how good it feels. Your nostrils are open, your head is clear, no more headachy, snuffling, blowing; no more headachy, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight. Advertisement.

26 ROUNDS END RING CAREER OF BIG NEGRO

(CONTINUED FROM PAGE 1.)

The receipts were expected to exceed \$100,000.

Women have been taking keen interest in the match and early indications were that more than 1,000 women would see the fight.

Round One

Johnson rushes Willard into corner, clinches. Leaving clinch Johnson lands left to kidney, Willard stabs straight left to jaw, swaying champion's head. Willard forces Johnson to do the leading. Johnson lands right to jaw; trades lefts to body. No damage. Round even.

Round Two

Willard put hard left to head; Willard put left to head and right to body. Johnson ceases smiling and rushes. Willard stood his ground. In a spirited rally in mid-ring, Johnson lands right and right to head, Willard countering left to jaw. Willard's round.

Round Three

Johnson rushes, Willard blocks neatly and shots still left to body. Johnson works into clinch and has the best in fighting. Willard works three lefts to the negro's head. They mix furiously in midring. Johnson drives left to body and tore after Willard like a whirlwind, driving him to the ropes. Willard puts right to the head. Trade hard lefts. Even round.

Round Four

Johnson comes out; Willard grins back and clinches. A sharp exchange at the breakaway did no damage. Willard blocks two rushes and grins confidently. In the third rush Johnson carries Willard to the ropes, landing two hard punches to the face. Willard bled slightly at the lips. First blood for Champion. Johnson's round.

Round Five

Johnson drives right to body and sneered at Willard, saying audibly, "Don't tell me what you are going to do, Mr. Willard." Johnson stabs left to face in the exchange near the ropes. Johnson emerges with lips bleeding slightly. Johnson rushes, landing twice in mid-section. Willard puts left to face. Even round.

Round Six

Johnson swings heavy right to head following rough exchange in mid-ring. Willard jabs left to nose. Johnson rushes fiercely, raining his fists about Willard's head. Willard emerges from the storm cool and apparently unhurt. Willard drives hard left to the champion's face. They trade hard lefts. Johnson drives Willard to corner at the tap of the bell. Even round.

Round Seven

Johnson rushes, apparently trying hard; Johnson lands hard right to Willard's face, then assaults stomach with both hands. Willard covers coolly and parried left at head, returning solid right across the ear. The negro lands left hook to race and right to body. Even vicious exchanges at bell. Even round.

Round Eight

The round opens with terrific rally. Willard assumes aggressive and crosses hard right to the champion's head, rocking him. Johnson clinched on the break and rushes but Willard neatly blocks. Willard has all the best of another rally, raining blows on the negro's head and body. Johnson is puffing hard at tap of bell. Willard's round.

Round Nine

Johnson rushes against but Willard blocks and grins. Johnson for the first time in his career seems to be getting wild. Johnson rushes. Willard met him with four rapid straight lefts to the head. Willard drives left to the face and right to body. Johnson misses with a wild right swing. Johnson rushes repeatedly. Willard always blocking. Willard's round.

Round Ten

Johnson seems weary but kids Willard and grins at the crowd. Willard takes matters easy, awaiting Johnson's leads. Lively exchange in mid-ring. Willard sends left and two rights to the body. The round is tame. No damage. Even round.

Round Eleven

Willard works cautiously, evidently fearing the negro's wildness is feigned as a trap for him. Johnson rushes at Willard, easily blocking Willard and sends a light blow to the left of the nose. Johnson lands a left to body. Serious. Tame exchanges, no damage. Even round.

Round Twelve

Willard's ear was bleeding when he came up. Johnson lands a left to the stomach and a right to the head. Willard fights back hard. The going becomes vicious. Willard sends a hard right to the body. Willard has the better of a fierce mix-up in which a dozen body blows were exchanged. Johnson rushes Willard to the ropes, scoring heavily, landing rights and lefts to the Kansan's head. Johnson was working like a locomotive when the bell sounded. Johnson's round.

Round Thirteen

Johnson seems fresh and rushes Willard hard, raining rights and lefts. The Kansan blocks well, but many blows penetrate his defense. The negro rushes again, landing left to the body. Johnson hooks left to jaw. Willard sends two lefts to the face, but Johnson counters hard with right, rocking the challenger's head. Johnson's best round thus far.

Round Fourteen

Willard carries the fight to the champion and rushes Jack to his corner, landing lefts and rights to the head and body. Johnson scores a hard left to the stomach and clinches, both exchanging lefts to the face at the break. The round was tame with both holding most of the time. Willard shows surprising cleverness in blocking Johnson's famous uppercuts. Even round.

Round Fifteen

Willard forces Johnson to lead, blocking his blows and clinching frequently. Willard swings a terrific haymaker, Johnson ducking. Johnson seems safe again, kidding Willard throughout the round. Johnson leads frequently. Willard always blocking. They exchange lefts. Willard lands right to the head at the bell. Even round.

Round Sixteen

left to the jaw in another rush. Johnson fights back hard, landing left to the head and right to the body. Willard rushes, Johnson blocking neatly. They alternate in wild rushes with little damage. Johnson scores two clean lefts to the body. Even round.

Willard sends a smashing right to the body. Willard puts right to the head and trades hard rights to the lead. Round even.

Round Nineteen
Willard places left to face. Willard lands right to body and left to head. Johnson hooks left to body, clinches and stalls repeatedly. Lively exchange at bell, Willard landing bitter blows. Willard has shade the better.

Round Twenty
Willard lands better blows. Willard a shade best.

Round Twenty-One
Johnson lands light left to face. Willard sends a stinging right to head. Johnson shakes head, clinches. Willard scores in fighting. Both land light repeatedly, but the round was very tame with much hippodroming. Willard's by a shade.

Round Twenty-Two
Jess jabs vicious left to the jaw, clinches and wrestles about the ring. Willard lands three hard rights to the stomach during infighting. Willard lands repeatedly on Johnson's stomach and the negro rushes and clinches to save himself from further punishment. Willard's round.

Round Twenty-Three
Johnson stands off vicious rush and laughs. Willard does all the fighting during this round, Johnson being content to block. Jack counters two hard rights, but Willard continues to force the pace, landing a series of left jabs at tap of bell. Willard's round.

Round Twenty-Four
The principals hug each other throughout the round. During clinch after clinch Jess scores several lefts to jaw, but none have much force. Johnson essays to box a little toward the end, but Willard drives him to cover. Willard's round.

Round Twenty-Five
Willard rushes, sending lefts and rights to face. Jack clinches. Johnson leads with a left, Willard countering heavily with a right to the jaw. Willard forcing the fighting. Johnson seems tired but winked repeatedly at the crowd and seconds. Willard's round.

Round Twenty-Six
Willard rushes. Johnson hung on. Jess sends a hard right to the body. Jack clings desperately, the referee compelling him to let go. Jess staggers Jack with a left to the jaw. Jess lands a terrific right to the jaw and Johnson goes down and out cold.

LOS ANGELES, April 5.—An unidentified Negro in the crowd about a newspaper bulletin board on Broadway received a beating at the hands of several white men when the flash "Willard wins" was shown on the screen. A remark of the negro caused a white man, apparently a laborer, to swing a heavy fist. In a moment several of the whites were belaboring the negro, who fled up Broadway, escaping the hundred men who followed.

IN THE JUSTICE COURT REMOVE GUNS AT MEX DANCE

Under Sheriff Iman and Deputy Sheriff Murray went to a dance at Delhi Saturday night to round up any stray revolvers that might be concealed about the persons of any of the participants of the evening's festivities. E. Saragosa and Pedro Palacios were arrested on charges of carrying concealed weapons.

Saragosa must feel as though he is dancing in hard luck. Just recently he finished serving thirty days for carrying a knife at a Mexican dance. The two men pleaded not guilty.

Justice Court Notes

Joaquin Arce is also in trouble on a charge of carrying a concealed weapon. His trial is April 9.

Hipolito Villa, accused of battery upon J. D. Teague, the P. E. section boss who did battle with five Mexicans Saturday morning, is to have his trial on April 6 at 2 o'clock.

Harold Craig of Westminster was in court with his father. The boy is charged with throwing a rock at Motorcycle Officer Ballard, who was passing on his machine. The boy is 17 years of age. Upon that testimony the case was sent immediately to the juvenile court.

Three postponements have been made in the further preliminary hearing of T. A. Wells of Huntington Beach, charged with subornation of perjury. Friday his attorney, Earl Rogers, was not here, and Saturday was a case of ditto, repeated again today. The case was continued to April 12.

Investors Want Bonds

(From the L. A. Financial News.)
That capital is now anxiously awaiting investment is ready to put up money in investment securities is shown by the quick sale by the Wm. R. Staats company of Los Angeles through their houses here and in San Francisco, Pasadena and Chicago of \$190,000 Monterey county road bonds within two weeks.

This well known bond and investment banking house has since the first of February disposed of \$400,000 bonds of an issue of \$500,000 of the Fresno Farms company. Disposals of these bond issues show conclusively that general conditions are improving, that investors are looking for bonds where prices do not necessarily fluctuate but the price for which is perhaps less than others whose income is a 5 to 7 per cent security.

Return to Prosperity Sure

Stoddard Jess, vice president of the First National Bank of Los Angeles, who has just returned from an extended trip throughout the East, is optimistic over general business conditions. Said Mr. Jess: "Conditions throughout the United States, financially, are looking up brightly, and while business will not pick up swiftly, the return to prosperity nevertheless will be sure. Business during 1915 will be generally slow, but on a much broader scale than during the close of last year."
